

CUSTOMIZED ACOUSTIC PANEL

When customized pattern is desired, ECOU Acoustic Panel will be able to accommodate upon request.

The acoustic performance of a customized pattern can be simulated once the customized pattern is finalized. Our team of acoustic engineers will ensure that the acoustic performance of the customized pattern meet the standard acoustic requirement of the space.

Should you require further information or guidelines, do not hesitate to contact us. Our team of engineers and designers will try our best to accommodate your requirements.
